

Integris.

At Integris, we empower people with technology. As a premium, national MSP, we combine the industry's best tools and platforms with a round-the-clock service desk, highly trained technicians and dedicated vCIO/vCISOs for our clients. Our goal? Clients who are one step ahead of their technology and cybersecurity needs, and ready to grow.

Founded in 2021 from the mergers of five successful managed IT service providers, Integris is now one of the fastest growing MSPs, with growth over 700 percent in 2021. Operating in 11 states and Washington, D.C., the company has more than 440 employees serving more than 2,000 clients nationwide. The company is privately backed by Chicago-based private equity company Frontenac.

Some of the accolades we have received include:

Services we offer

- Onsite visits and round-the-clock service desk
- Strategic vCIO and vCISO services
- Web filtering, anti-virus, anti-malware and firewall management
