

# Elevate your team

## With Project Services that augment your IT operation

Do you have big infrastructure projects piling up, but don't have enough IT experts on hand to get the job done? Call Integris. When you need to scale your IT team, we have IT engineers on demand, that you can use as an extension of your business.

We can systematically help you plan for intelligent growth – new business launches, upcoming expansions, hybrid work solutions, M&A, and more. With our menu of elevated services, you can fill in gaps in your IT service and governance, at scale.

### Staff Augmentation

Integris Staff Augmentation provides your business with a dedicated Integris team member to strengthen your IT staff and meet your unique business needs. Our team can fill knowledge or skill gaps, help train, assist with projects, troubleshoot issues that arise, and more. Integris managed service clients can access the flexibility of regular on-site support at a discounted rate. A la carte clients will be billed just for what your company needs.

### Project Management Services

Don't put off important projects because you lack time or staff. With IT Project Management Services, Integris can plan and deliver what you need, when you need it. With our experience and proven process, we can help make sure you can focus on what's necessary for your business, while still keeping ahead of project planning. Increase your business operating agility with Integris IT Project Management, and let us get your projects done.
