

Integris.

At Integris, we empower people with technology. As a premium, national IT provider, we offer small to mid-sized companies with the best of both worlds – a local service and engineering team backed up by continuous monitoring/patching, a service operation hundreds of employees strong, and our national network of vCISOs. Our goal? Clients who are one step ahead of their technology and cybersecurity needs, and ready to grow.

Through organic growth and skillful acquisitions, Integris is now one of the nation's fastest growing MSPs, appearing regularly on industry lists recognizing fast expansion and customer satisfaction. Operating in over a dozen states, the company has more than 600 employees serving over 1,800 clients nationwide. The company is privately backed by Chicago-based private equity company Frontenac.
